

WOVEN EASTER BASKET CRAFT

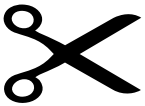

Instructions:

1. Print out the basket, weaving strips and eggs. It looks great if the basket and strips are printed on different colored paper, but white paper works fine too.
2. Cut out the basket. Then, gently fold the basket to clip along the dotted lines so it's easier to cut them straight.
3. Cut along the dotted lines to make the paper strips for weaving. You might not need all the strips.
4. Weave the paper strips in an over-under alternating pattern.
5. Glue down the tops and bottoms of the woven strips, and trim the excess paper.
6. Glue your basket to your background paper.
7. Decorate, cut out and then glue your eggs into the basket. Use the templates or make your own.
8. Make a handle using string, yarn, pipe cleaners, ribbon. You could also draw or paint a handle. Add a bow if you like.

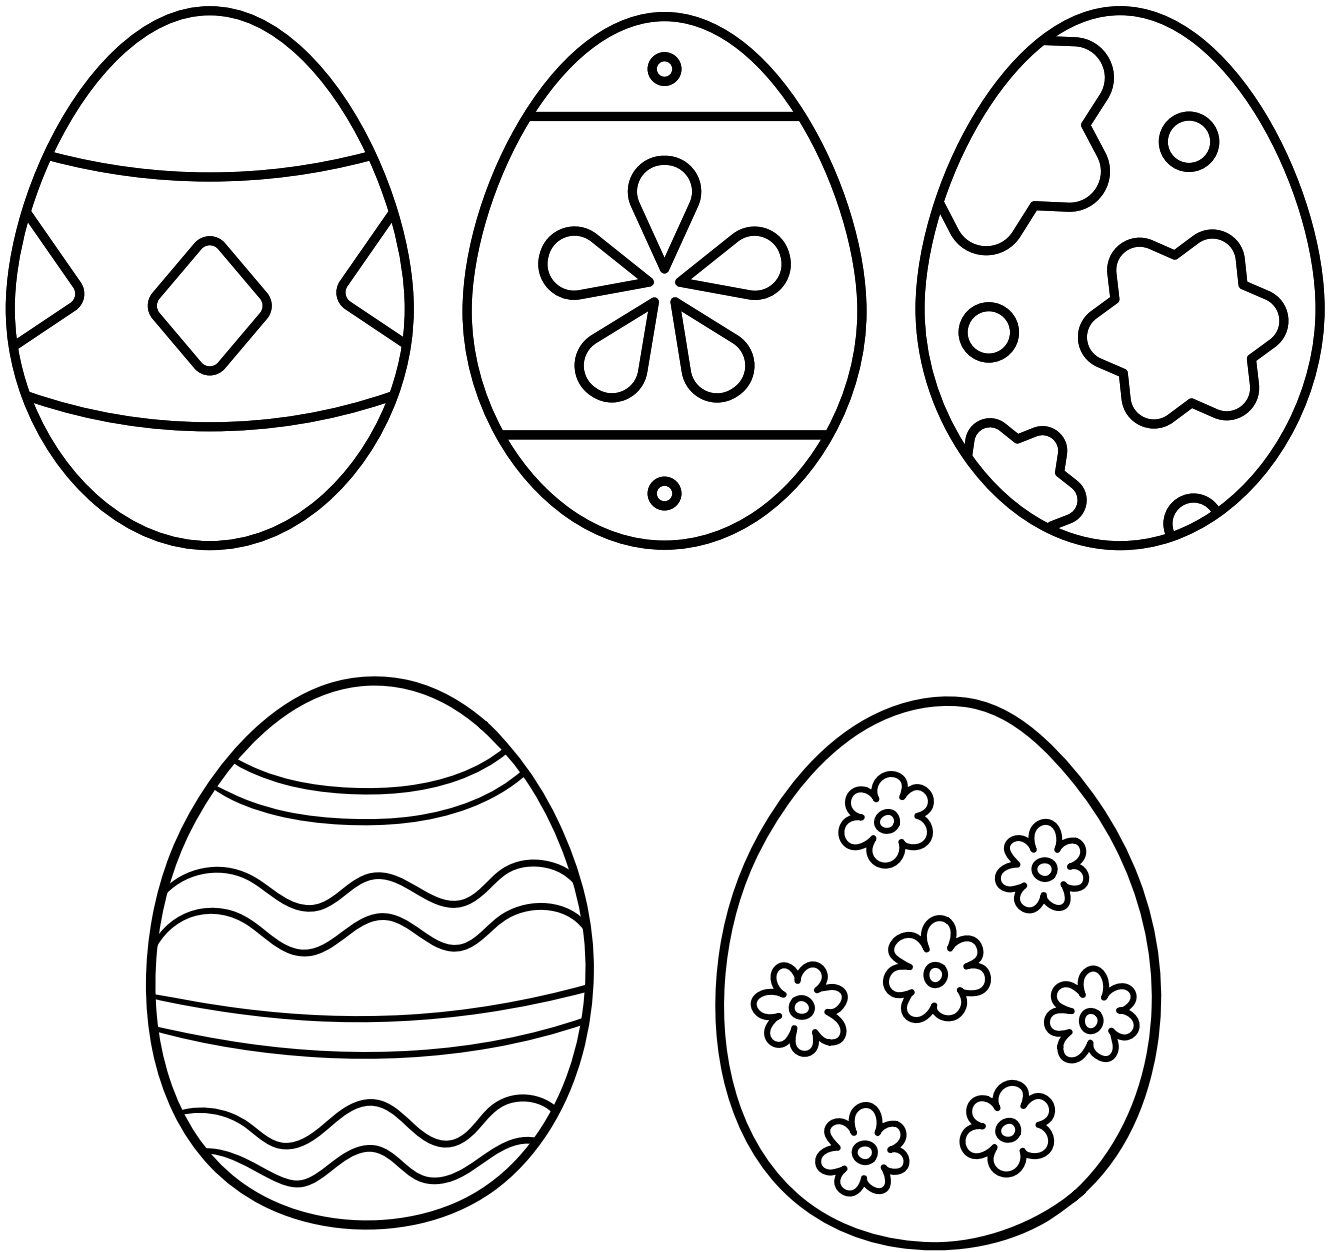

WOVEN EASTER BASKET TEMPLATE

Cut along the dotted lines for the paper strips that you'll use to weave.
